PUBLIC ADVISORY

24th March, 2020

Temporary Closure of the Buccoo Reef Marine Park

The Division is hereby advising the general public that access to the Buccoo Reef Marine Park is temporarily restricted as a direct result of the global development of the Novel Coronavirus (COVID-19).

Entry to the Buccoo Reef, Nylon Pool and No Man's land is prohibited with immediate effect and until further notice as we support measures implemented by the Government to limit human congregation to contain the spread of the deadly virus.

The Division has placed priority on safe-guarding the health and safety of its workers, stakeholders and the wider population of Tobago, during this period. Accordingly, the public is reminded to be vigilant and is encouraged to be co-operative as we implement these temporary measures.

For more information, please contact the Department of Marine Resources and Fisheries at 639-4354.
